

High Commissioner

Democratic Socialist Republic of Sri Lanka

Teardrop Relief was formed by a group of volunteers who met through relief work at the Sri Lankan High Commission in London immediately following the Tsunami disaster on the 26th of December. This group of individuals decided to continue their good work and formed the charity "Teardrop Relief". I deeply appreciate the support extended to us by this team of individuals. I would like to thank all of you for your interest and enthusiasm in helping victims of the Tsunami disaster.

I would like to wish their newly established charity "Teardrop Relief" all the very best in their future endeavours.
